PUBLISHED BY THE FACULTY OF SCIENCE
IN COOPERATION WITH THE STUDENT COUNCIL

Especially made for
UvA science students

September 2018

S*R *Facultaire*
Studentenraad

Dear students,

Welcome (back) to Science Park! We hope you've enjoyed your well-deserved summer holidays and are excited to be back for another year of studying. As you might know, every month you can find a new edition of this newspaper, filled with information about the latest developments at the Faculty of Science. This month we'd like to inform you all that a new Faculty Student Council (FSR) has been installed for the upcoming year.

The FSR, consisting of 12 motivated students, spends her time sticking up for the rights and interests of all the students at our Faculty. In addition, we spend our time thinking up new ideas to improve our Faculty. However, we cannot do this alone! If you have any ideas or suggestions for study places, bike parking, facilities, sustainability, quality of education or perhaps something completely different, we would love to hear you out and together look at the possibilities of executing these ideas. If you encounter problems with exam committees, re-sits, course enrollment, scheduling, teachers or anything else, you can always ask for our help.

Do you have any questions, or do you just want to drop by for a quick chat? Feel free to visit our office during any weekday between 09:00 and 17:00.

We hope to see you soon!

Yours truly,
The Faculty Student Council

Get started with Canvas

As of this academic year, Canvas has replaced BlackBoard as UvA's digital learning environment. In Canvas, you can access teaching materials, articles, assignments and messages for all your courses. Logging into Canvas is easy: just use your UvAnetID. All the courses for which you have registered will automatically be added

to your personal Canvas environment. For help finding your way around Canvas, click on the Help button at the bottom of the red navigation bar on the left and open the course 'Canvas for UvA Students'. Here, you'll find a short instruction video and five tips to help you get started.

DID YOU KNOW...

...Canvas is also available as an app in the App Store (iOS) or Play Store (Android)?

...You can access old course materials as 'read-only' in BlackBoard for another year?

Scan the QR code to open the course 'Canvas for UvA Students'

Empty your locker every day

The lockers will be cleared out every evening

Schedule of Requirements for ASP942 finalised

The UvA is developing a new building for teaching, research and co-creation in the information sciences across from Science Park 904. Last July, working groups of staff and students of the Faculty of Science submitted input for the Schedule of Requirements for this new building, that for now has the working title ASP942.

The Schedule

of Requirements, which was approved by the Faculty Board on 7 August, sets out the fundamental qualitative principles for the new building. The ambition is to create a building where

education, research, and innovative partnerships in come together. The UvA also aims to make it a sustainable, healthy, inspiring, flexible and smart building; gas-free and satisfying the guidelines for a 'nearly energy-neutral building'.

The next step is to select an architect. The building is expected to be completed in 2021.

JOBS

Faculty Student Council:
Secretary (fnwi@studentenraad.nl)
BetaBreak:
Committee member (betabreak.nl)
Meet the Master:
Chaperones (meet-the-msc@uva.nl)

JOBS
