

How to attend classes online using Zoom in Canvas

Zoom is a video conferencing and recording tool that can be integrated with Canvas. If your instructor is using Zoom, here's what you need to do.

Test your setup beforehand

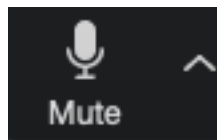

Try the [Test Meeting](#) to make sure your software and audio is set up.

Find the Zoom meeting link for your class

If the meeting was scheduled via Canvas, the Zoom meeting link is:

- In the Canvas course, under Zoom
- In Canvas Calendar, as an event
- In a Canvas event notification (in your email if notifications are on)
- In the Zoom app
- Join a Zoom session

Click the Zoom meeting link several minutes before your meeting, as you may be prompted to [download Zoom to your PC, Mac, tablet or phone](#). Follow the instructions to join computer audio and mute yourself if that isn't default.

Unmute when you want to talk. In some cases, your instructor should be recording the session.
